

## **NEW [MedicineWarriors.org](https://MedicineWarriors.org) MAP MAKES LOCATING LIFE-SAVING INSULIN EASIER FOR UKRAINIAN DIABETICS**

---

Ukraine's **>2.3m** insulin-dependent and diabetic\* persons struggle accessing the insulin their life depends on due to the war.

The new [MedicineWarriors.org](https://MedicineWarriors.org) site provides diabetics with the most accurate and user-friendly information about location of pharmacies where insulin is currently available in Ukraine. Data is based on regularly updated governmental sources.

Initial version of the site was created in 24 hours by the young virtual team of Ukrainian, Polish and Georgian data scientists who won the Code4Ukraine virtual international hackathon with this concept.

[MedicineWarriors.org](https://MedicineWarriors.org) is a free, reliable and scalable solution available for further similar purposes.

### **How does [MedicineWarriors.org](https://MedicineWarriors.org) work?**

Looking for insulin in Ukraine? Check the live updated and intuitive map on MedicineWarriors.org with locations of those pharmacies where insulin is currently available according to governmental sources. Direct telephone contact and pharmacy webpage is provided along with all other important information - everything insulin seeking person needs in one and easily accessible place, on laptop or mobile phone.

### **Is [MedicineWarriors.org](https://MedicineWarriors.org) trustworthy?**

The site sources the data from public records of Ukrainian Ministry of Health. Current events may impact insulin availability and pharmacy operating hours. For safety reasons, try to reconfirm availability before going to the pharmacy via provided contact information.

### **Who built [MedicineWarriors.org](https://MedicineWarriors.org)?**

Olha, our team member from Kyiv, proposed we help her diabetic neighbors and friends struggling to access the insulin their lives depend on.

Our young enthusiastic group of tech students and professionals from Ukraine 🇺🇦, Poland 🇵🇱 and Georgia 🇬🇪 met virtually at the [Code4Ukraine](#) hackathon. 24 hours later [MedicineWarriors.org](https://MedicineWarriors.org) was live and our user-friendly, sturdy, scalable and reliable live solution won the hackathon.

[Code4Ukraine](#) was organized by two Polish 🇵🇱 and a Swiss 🇨🇭 data science students from Technical University Eindhoven 🇳🇱 to support Ukrainians 🇺🇦 through programming and data science.

### **Help us expand the reach of [MedicineWarriors.org](https://MedicineWarriors.org) to other issues and countries**

We want to grow our site with information provided by pharmacies, patient organizations and doctors. Our technical solution is also available for deployment for further non-profit uses benefitting civilians in war areas. Our technology is solid, fully operational and scalable.

**Olha Baliasina** (Kyiv, Ukraine 🇺🇦)  
[kvitkadykogogranatu@gmail.com](mailto:kvitkadykogogranatu@gmail.com)

A second-year student at Igor Sikorsky Kyiv Polytechnic Institute, pursuing a bachelor's degree in System Analysis. An 18-year-old girl who has some all-Ukrainian level accomplishments in economic geography as well as volunteering experience and wants to help the people of her country, as much as possible, to overcome the challenges the Ukrainians faced during the war.

**Piotr Konorski** (Warsaw, Poland 🇵🇱)  
[piotr.konorski@gmail.com](mailto:piotr.konorski@gmail.com)

Data scientist, IT specialist and astronomer, multi-time hackathon winner, enjoying working on solutions to global technological & social challenges. Professional experience covers astrophysics, high performance computer science, aerospace engineering, astronautics, affective computing and vector graphics. Passionate drone photographer.

### Team Members & ever-growing list of [MedicineWarriors.org](https://MedicineWarriors.org) contributors

**Krystian Nowak** (Poland 🇵🇱)  
[krystiannowak212@gmail.com](mailto:krystiannowak212@gmail.com)

A freshman at Minerva University, studying Computer Science and Business. First Robotics Competition team, #8127 Team Rabyte, founder. Tackling challenges of tomorrow.

**Maia Lortkipanidze** (Tbilisi, Georgia 🇯🇪)  
[mashiko@uni.minerva.edu](mailto:mashiko@uni.minerva.edu)

A First-year student at Minerva University, double majoring in Natural and Computer Sciences. Passionate about physics, engineering, and UX design. Previous member of national Team Georgia in First Global Challenge. Currently, working as a FoodTech Research assistant for Minerva University - Berlin Team.
